She learned the art of shaving as a young thing, when her grandfather's arthritis impeded him from using the brush and razor himself. She began to like it and, years later, Mona now runs a barber shop in her home in California. It's an unusual pastime for a woman with an acclaimed film career in the porn world. Like most Librans her hobbies take up more time than her work, and so from her home next to the beach, surrounded by palm trees, she does the film shoots alongside her shaving. Her calling card reads: 'Mona Green, shaver'. One of her lovely assistants greets you at the door. She welcomes you into a room where you will have to wait 15, 30 or even 45 minutes. As they say, 'The best is worth waiting for'. Bear in mind that Mona will probably be giving a good once-over to the previous client down on the beach, and she likes to do her work well.

As in all barber shops, there is lots of work. While one beard is being shaved, there are a couple more beards waiting on the other side of the door, talking of women of course. Mona gets a real turn on when she hears them bragging about sex, about the number of chicks that they've had in bed, how many times they've fucked, and just what they did...

Everyone who sits down in Mona's chair remembers her films and the excitement in the air is electric. IT'S YOUR TURN. The gorgeous Mona appears with an open white blouse, showing a glimpse of her firm breasts, looking as fresh as a summer breeze. What an expert! Within less than five minutes she's taken off your beard! Time flies, watching her sweet nipples bouncing before your eyes.

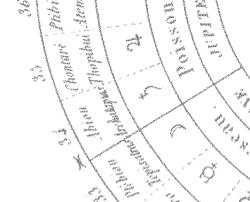

The influence of Venus over Libra shows in little frivolous quirks. If she wants to screw a client, she has to have shaved him first. If she likes you, she'll snap the razor shut and lever the barber's chair into a reclining position without uttering a single word. There and then, she'll mount you to offer you her stimulating finishes. She's already cropped the stubble on your chin, and now she'll shave your shaft, leaving it ready for all your juices to be squeezed out.

With a little luck she'll take you down to the beach, along with her girlfriend waiting nearby, so that you can pay for her services with frothy mouthfuls that will make her brim with pleasure. It's a shame that you won't be able to go back for more the next day. You'll have to wait until your beard needs her services again, with at least a month of growth. Without a beard there's no service. In the meantime, with the energy and the charm of a Libra, Mona will carry on shaving her many other clients.

ALISSA

A breath of fresh air! Alissa is just that, a girl who combines to perfection her profound artistic sensitivity and the erotic fever of her body. A passionate fascination for sex and a fervent vocation for art, live harmoniously within her.

The influence of her ruling planet Pluto, plays a role in the fine balance of these two interests, to the point that each one rules over the other, depending on the moment.

As a loyal admirer of the artist Paul Gauguin, she decided to follow in his footsteps and escape from the civilized world. Spurred on by the irresistible lure of the unknown, Alissa left everything behind, except cinema, and went to paint landscapes in the tropical light of an island out in the middle of the Pacific. When she arrived, she was totally taken aback by the size of the natives' shafts. She was so spellbound by those exotic cocks, barely covered by their bathing trunks and scanty loincloths, that she adopted them as the central motif in her paintings. Massive and serene forms hanging along the seashore waiting for a mermaid with a pale complexion, like Alissa, to arrive and wake them from their lethargy and call them to erection.

She loved the exuberance of the landscape, the spirituality of the place and the splendour of her models – so much so that she built a hut from wood, palm leaves and bamboo, and only returns to civilization when she is obliged to fulfill her exclusive porn film contracts.

Few Scorpios survive any length of time without sex. Every day, under the soft tones of the setting sun, she sits in front of the canvas on a beach with coconut palms, and chooses a couple of her many native friends. Imagine that you are one of them, naked in front of the artist.

While she paints you with a highly colourful loincloth, her scrutiny intimidates you. You respond by contemplating her body in detail: what gentle breasts, what elastic hips, what an inviting rear. No one comes away unscathed from Alissa... Your cocks are up and ready for action.

The artist complains that your sizes have changed, and has to touch up her sketch.

With your excitement she finds herself putting your bananas back in place time after time, and in the end they replace the paintbrush in her hands. With her sweet tongue she teases your dicks until they are ready to shoot.

Her carnal impulses have overtaken her artistic temperament yet again. So many of Alissa's paintings are never finished because when her hottest side emerges, painting no longer satisfies her. What she needs is to bathe in sperm under the light of the moon in her worldly paradise.

By the way, the title of her latest unfinished work is "Masts of Tahiti"

Alissa also appears in the following productions:
